

Instruction Guide for HD Lockdown - (HDL) (Patent pending)

Replacing the Bracket Arms

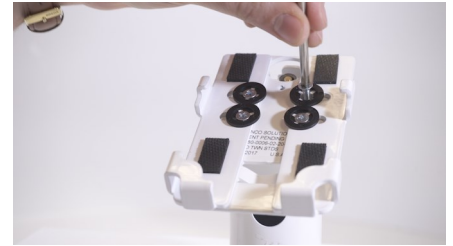

(Code 880-009)

1. Locate HD Lockdown (HDL), new bracket arms, HDL key, and a Phillips screwdriver.

2. Unlock the HDLD and remove the device.

3. Remove the screws and the original bracket arms.

4. Place the new bracket arms together at the closest setting. Make sure the rubber bumpers are facing up.

5. Screw in the new bracket arms halfway.

6. Place the plastic stoppers on the screws and tighten completely.

7. Insert the device, then the top bracket. Lock the HDLD.
